**Know what's below.
811 before you dig.**

CONTACT 811 BEFORE YOU DIG

Every digging project requires contacting Alabama 811 -- even small projects like planting shrubs and trees, building a deck, installing a mailbox or fence.

Go online to submit your locate request or call 811 least two full working days prior to starting your work but not counting the day you notify Alabama 811! This process will get the buried lines of Alabama 811 member utility companies marked for free!

This complies with the requirements of Alabama's Underground Damage Prevention Law and, helps prevent undesired consequences and possible service disruptions to your neighborhood.

Safe Digging Is No Accident: Contact 811 Before You Dig.

Visit www.al811.com for more information.

ELECTRIC CITIES
OF ALABAMA

**ASSOCIATION
INFORMATION**

About

Electric Cities of Alabama

P.O. Box 1550 | Montgomery, AL 36102-1550
770 Washington Ave., Suite 164 | Montgomery, AL 36104
Phone: (334) 954-3221 | www.electriccities.org

Electric Cities of Alabama (ECA) is proud to serve approximately one million customers in 36 cities across the beautiful State of Alabama. From the Tennessee Valley region in the north to the gulf and wiregrass regions in the south, ECA's municipally owned electric utilities offer reliable and low-cost electricity.

Board of Directors

The ECA Board of Directors is composed of one representative from each participating member city. The Board of Directors establishes the policies of the association and meets quarterly.

Services Provided by ECA

State Governmental Affairs Activities

For the purpose of statewide unity of Alabama's electric cities, ECA makes every effort to achieve consensus among its member utilities and serves as the voice of Alabama's electric cities. Activities are facilitated by ECA staff by bringing representatives of member cities together with their elected officials throughout the year. These activities develop a better working relationship between electric cities and their respective legislators, as well as other elected officials.

To this end, ECA provides the following services to its members:

- State and National Governmental Affairs Activities
- Legislative and Regulatory Coordination
- Regular Legislative Updates and Legislative Alerts
- Legislative Council Development
- Annual Alabama Legislative Appreciation Reception
- Annual Legislator Recognition
- Political Action Support

- Legislative Coalition Building
- Memberships and Sponsorships
- Public Relations

National Governmental Affairs Activities

ECA works closely with the American Public Power Association's (APPA) legislative staff to support legislative efforts that impact ECA's membership. Activities include communications and contacts with the Alabama congressional delegation, urging support of Electric Cities legislative agenda within Alabama and the nation.

Washington Legislative Conference

For the purpose of federal legislation, ECA makes every effort to achieve consensus among its member utilities and serves as the voice of Alabama's electric cities. Activities are facilitated by ECA staff by bringing representatives of member cities together with Alabama's congressional delegation. These activities aid developing working relationships with electric cities and their federally elected officials.

Communications & Public Relations

Electric Cities of Alabama has developed a comprehensive program for enhancing public relations and communications of public power within Alabama. Following is a list of the various mediums we provide:

- Membership Development
- Newsletter: Electric Cities Connected
- Annual ECA Membership Directory
- News Media Contacts
- Disaster Communication Services
- Association Website: www.electriccities.org

Disaster Assistance & Coordination

ECA shall act as the statewide assistance coordinator during times of significant natural disasters such as hurricanes, tornadoes and ice storms. ECA staff will work with municipal organizations across the United States to coordinate an emergency response program.

ECA Staff

Jonathan Hand, Executive Director

Jon Hand joined ECA in 2009 as Executive Director, where he represents 36 municipally owned electric utilities across the State of Alabama. Jon's responsibilities include coordinating all federal and state governmental relations and legislative activities to mutual aid and disaster assistance for member utilities.

Donna Key, Director of Communications and Events

Donna Key joined ECA in 2017 as the Director of Communications and Events. Having worked in Association management for more than two decades, Donna has a diverse knowledge of meeting and event planning, public relations, marketing, and member relations.

Energize Your Future with Us.

NexGen Utility Sales connects utilities and energy leaders with proven partners and leading OEMs - delivering engineered solutions for reliability, resiliency, and modernization.

Integrated Power Solutions for Every Challenge

NexGen works with industry-leading partners to deliver custom-engineered solutions for utilities, co-ops, and municipalities.

- ✓ Grid resiliency & emergency power
- ✓ Mobile & permanent energy storage
- ✓ Custom microgrids & DER integration
- ✓ Substation and T&D equipment
- ✓ Real-time monitoring & controls

Resiliency & Energy Storage

Mobile BESS, utility-scale storage, and backup power solutions for outages, peak shaving, and emergency response.

Microgrids & DER Integration

PowerSecure microgrids, generators, solar, and hybrid systems engineered for performance and reliability.

Grid & Substation Solutions

Transformers, switchgear, structures, monitoring, cooling systems, and more - sourced through NexGen's trusted OEM network.

THE OKOGUARD[®] ADVANTAGE

Introduced by Okonite, with nearly 50 years of service history - Okoguard EPR cables have become the standard of unequalled excellence in power cables.

Only Okoguard cables have the distinction in the industry to provide an all EPR insulation system, ensuring unmatched cable reliability for your underground infrastructure.

Okoguard's design, service history and uncompromising standards offer confidence in the lifetime performance of your underground cable.

Okonite - With over 138 years of specialized service to the electrical utility industry, is still the leader in innovation and technology.

OKOGUARD ADVANTAGES:

- ✓ SUPERIOR PERFORMANCE
- ✓ OUTSTANDING RELIABILITY
- ✓ MORE FLEXIBILITY
- ✓ ALL EPR INSULATION SYSTEM
- ✓ NO TREEING
- ✓ TRIPLE TANDEM EXTRUSION

Okonite Cables...A higher Standard!

ELECTRIC CITIES
OF ALABAMA

POWER
PROVIDERS

Energy Southeast

Energy Southeast is a public corporation of the State of Alabama. Energy Southeast was created in 1981 for the primary purpose of securing an adequate, dependable and economical power supply for its participating Members. Energy Southeast sells power to each of its 11 participating Members, which consist of municipalities, utility boards and an electric board. Each Member owns and operates its own electric distribution system.

Mission Statement

Energy Southeast's mission is to provide for our Member communities a reliable and economical source of electric power, enabling them to preserve and enhance the benefits of municipal utility ownership for their citizens and the electric customers they serve. We strive to offer services that our Members need and can adapt to provide the best value for their communities and customers.

Power Supply and Other Services

Energy Southeast has power supply contracts and also owns the Energy Southeast-Sylacauga Peaking Plant, consisting of two simple-cycle gas turbine generating units with a combined rating of 95MW. This power plant supplements the power supply needs of its Members, who also receive power from the Southeastern Power Administration (SEPA). Energy Southeast's Members have appointed Energy Southeast as their agent for all matters pertaining to their SEPA contracts.

Some of Energy Southeast's Member services include:

- Cost of Service Studies
- Regulatory Compliance Support and Coordination
- Territorial Legal and Engineering Support
- Distribution Services
- Joint Action Services Working Group
- Communications and Marketing Support
- Scholarship Program
- Economic Development Support Programs
- Hometown Connections® Affiliate
- American Public Power Association (APPA) Membership for Members
- APPA's Demonstration of Energy & Efficiency Developments (DEED) Membership for Members
- Electric Cities of Alabama Membership for Members
- TVPPA Affiliate Membership for Members
- Training and Safety Support Services and Distribution Technology Support

TVA in Alabama

- TVA covers 8,979 square miles of Alabama with 6,826 miles of watershed management. Local power companies (LPCs) distribute TVA in 17 Alabama counties.
- TVA sold 18.6 billion kilowatt-hours of electricity to 17 municipalities and 8 co-ops in Alabama.
- TVA provided 7.84 billion kilowatt-hours of electricity to 510,000 households through LPCs in Alabama.
- TVA served 9.79 billion kilowatt-hours of electricity to 102,000 Commercial and Industrial Customers through LPCs.
- TVA generated \$1.6 billion in power revenue in Alabama in 2019. That comprises 14.1% of TVA's total operating revenue.
- In Alabama, TVA operates three hydroelectric dams (Guntersville, Wheeler and Wilson), one nuclear power plant (Browns Ferry) and one natural gas-fueled combustion turbine site (Colbert), with a combined generating capacity of more than 4,870 megawatts.
- TVA operates two solar facilities in Alabama—a 23-kilowatt site at the Huntsville Botanical Gardens and a 36-kilowatt site at the Florence wastewater treatment facility.

Constellation, is a leading competitive energy company providing power, natural gas, renewable energy, and energy management products and services for homes and businesses across the continental United States. We provide integrated energy solutions — from electricity and natural gas procurement and renewable energy supply to energy efficiency and distributed energy solutions — that help customers strategically buy, manage and use their energy. Constellation currently serves wholesale full requirements electricity and related load serving products to various customers that do not own sufficient generating capacity or have in-house supply functions to serve their own load requirements. In addition, Constellation owns the 750 MW Hillabee Energy Facility in Alexander City, Alabama and owns one of the nation’s largest and cleanest power generation fleets, with approximately 35,000 megawatts of owned power generation, including more than 19,000 megawatts of nuclear power.

Alabama Power

Alabama Power is a regulated investor-owned utility that provides retail electric service to 1.5 million homes, businesses, and industries in the southern two-thirds of Alabama. Alabama Power is part of Southern Company, a leading U.S. energy company serving nine million customers and businesses nationwide.

Alabama Power owns 81 electric generating units located at 24 power plants in the state with a total nameplate capacity of more than 11,500 megawatts. More than 85,000 miles of power lines carry electricity to customers throughout 45,000 square miles of service territory.

Alabama Power takes its responsibility to protect the environment seriously. They have a strong record of meeting or exceeding standards set by state and federal environmental agencies and routinely rank among the top of all investor-owned utilities for its investment in equipment and technology to safeguard the environment. Alabama Power is committed to preserving the beauty, richness and diversity of Alabama's natural landscape.

Southern Company supports 9 million customers and businesses nationwide with electric utilities in three states (Alabama, Georgia and Mississippi) and natural gas distribution utilities in four, and provides wholesale energy, customized distributed energy solutions and fiber optics and wireless communications across the country.

**ASSOCIATE
MEMBERS**

Associate Membership Information

CORPORATE ASSOCIATE MEMBERSHIP

- ◆ \$1,500 Annually
- ◆ Organization is Association Member (up to five individuals)

INDIVIDUAL ASSOCIATE MEMBERSHIP

- ◆ \$1,000 Annually
- ◆ One Individual is the Association Member

All corporations and individuals requesting ECA Associate Membership will be required to complete an application. This application will be reviewed by the ECA Board of Directors for consideration and approval at the next scheduled Board of Directors meeting.

ASSOCIATE MEMBER BENEFITS

- ✦ **ELECTRIC CITIES ANNUAL MEETING INVITATION:** To be held July 5-8, 2026, at The Lodge at Gulf State Park in Gulf Shores, Ala. Associate members are charged the same registration fee as regular members. Sponsorships will not be required for associate members, however, additional sponsorships are available.
- ✦ **ELECTRIC CITIES ENGINEERING & OPERATIONS CONFERENCE:** To be held October 19-21, 2026, at Renaissance Ross Bridge in Hoover, Ala. Open to member cities, power suppliers, cooperatives, associate members and vendors to the utility industry.
- ✦ **ELECTRIC CITIES WEBSITE:** www.electrincities.org Associate members will have access to the association's website and will be listed on the *Associate Members* page, with appropriate links to their websites and/or e-mail addresses.

✦ **ELECTRIC CITIES MEMBERSHIP DIRECTORY:** Published annually. Associate members will benefit from the following:

- ◆ One full page advertisement at no additional cost. (a current \$500 cost to non-members)
- ◆ Receive one hard copy of the directory for each Associate Member along with a PDF version.
- ◆ Listing in the ***Associate Members*** section of the directory. This listing will include company information, contact names, addresses and phone numbers.
- ◆ Additional listing in the ***Advertiser's Index*** in the directory.

✦ **OTHER TRAINING PROGRAMS:** Will be open to associate members. Associate members may be called upon to provide instruction at future training events.

✦ **SPONSORSHIP OPPORTUNITIES:** Associate members will have right of first refusal for all sponsorship opportunities that may arise during the course of Electric Cities continued development.

ASSOCIATE MEMBER LIMITATIONS:

Associate members are non-voting members of the association; therefore, they may not attend association business meetings, legislative meetings. Conferences or other events of the association ***unless by express, written invitation of the Executive Director.*** Without such invitation, Board. Legislative functions and other business meetings of the association will be limited to regular members only.

ELECTRIC CITIES OF ALABAMA

UNITING ALABAMA'S ELECTRIC CITIES

Energy Savings Through Prepayment

As your public power utility grows, so does its need for low-cost energy. Energy Southeast, A Cooperative District®, is ready to help by significantly reducing your power supply cost. If your utility is looking for innovative ways to reduce expenses, we have the resources and expertise to make it happen.

Prepaid Electricity: Prepay Bonds Generate Savings

Energy Southeast, A Cooperative District, has developed partnerships to save money on existing power supply for municipal utilities. These prepay projects:

- ⚡ Produce millions of dollars in energy savings each year
- ⚡ Fully utilize your utility's tax exempt status
- ⚡ Do not impact utility operations and require few administrative changes
- ⚡ Do not impact existing power supply arrangements
- ⚡ Maintain total flexibility in your future energy procurement
- ⚡ Simplify financing by using Energy Southeast, A Cooperative District, as a conduit
- ⚡ Do not impact your utility's credit metrics or borrowing limits

With a prepay project, Energy Southeast, A Cooperative District, can save money on existing power supply contracts and future energy needs all without changing your utility's financial profile.

Prepaid Energy Program

Energy Southeast, A Cooperative District, issues tax-exempt municipal bonds to prepay for future energy that will be sold to your utility, saving you money. You'll experience a significant reduction in power costs, providing for long-term financial stability and security.

Value We Bring to Our Clients

\$145
MILLION
Energy Savings

\$3.4
BILLION
Prepay Bonds Issued

Make your energy project a reality with funding through Energy Southeast, A Cooperative District. Call 334.262.1126 or visit energysoutheast.org.

EMPOWERING Quality of Place

Why Public Power Matters

Public power invests in quality of life: **strong schools, active recreation, a robust economy**, access to **top-tier healthcare**, and **opportunities to grow**. Energy Southeast (formerly the Alabama Municipal Electric Authority) does more than provide electricity—it builds thriving futures for Member communities.

Public Power's Bright Future

Energy Southeast is leading the way in public, locally-owned power, expanding to deliver new, innovative energy solutions. We're equipped to help our members grow sustainably and achieve true quality of place. For energy leadership in the 21st century, look no further than Energy Southeast.
